Front Matter: Volume 10411
Clinical and Preclinical Optical Diagnostics

J. Quincy Brown
Ton G. van Leeuwen

Editors

25–27 June 2017
Munich, Germany

Sponsored by
The Optical Society (United States)
SPIE

Published by
SPIE
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

SPIE DIGITAL LIBRARY

Publication of record for individual papers is online in the SPIE Digital Library.

SPIEDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:
- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.
Contents

vii  Authors
ix  Conference Committee

SESSION 1  NOVEL MICROSCOPIC METHODS

10411 02  Probing energy metabolism and microviscosity in cancer using FLIM [10411-35]

10411 03  Efficiency enhancement of Raman microspectroscopy at long working distance by parabolic reflector [10411-3]

10411 04  Studying the effect of photodynamic therapy (PDT) to enhance healing of femur fractures using polarimetric second-harmonic generation microscopy [10411-17]

SESSION 2  PHYSIOLOGICAL MONITORING

10411 05  Influence of the measuring condition on vibrocardiographic signals acquired on the thorax with a laser Doppler vibrometer [10411-7]

10411 06  Investigating optical path in reflectance pulse oximetry using a multilayer Monte Carlo model [10411-2]

10411 07  Thyroid tissue constituents characterization and application to in vivo studies by broadband (600-1200 nm) diffuse optical spectroscopy [10411-85]

SESSION 3  MULTISPECTRAL IMAGING

10411 08  Photoaging evaluation by RGB images using a smartphone for photodynamic therapy assessment [10411-10]

10411 09  Diagnosing hypoxia in murine models of rheumatoid arthritis from reflectance multispectral images [10411-26]

10411 0A  A multispectral endoscope based on spectrally resolved detector arrays [10411-12]

10411 0B  Multi-spectral endogenous fluorescence imaging for bacterial differentiation [10411-18]

SESSION 4  NEUROPHOTONICS

10411 0C  Interventional fluorescence spectroscopy: preliminary results to detect tumor margins during glioma resection with two fluorescence spectra of PpIX [10411-28]
## SESSION 5  ENDOSCOPIC AND INTRA-OPERATIVE IMAGING I

<table>
<thead>
<tr>
<th>Presentation ID</th>

</table>
Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.
