Front Matter: Volume 8046
The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is $18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/11/$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIEDigitalLibrary.org

**Paper Numbering:** Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.
# Contents

vii  Conference Committee

## SESSION 1  GUNFIRE DETECTION/COUNTER SNIPER/BEAM FORMING

8046 02  **Networked localization of sniper shots using acoustics** [8046-01]
S. Hengy, P. Hamery, S. De Mezzo, P. Duffner, Institut Franco-Allemand de Recherches de Saint-Louis (France)

8046 03  **Microphones’ directivity for the localization of sound sources** [8046-02]
P. Rizzo, M. Tajari, Univ. of Pittsburgh (United States); A. Spada, Univ. degli Studi di Palermo (Italy)

8046 04  **Supersonic projectile models for asynchronous shooter localization** [8046-03]
R. J. Kozick, Bucknell Univ. (United States); G. T. Whipps, U.S. Army Research Lab. (United States); J. N. Ash, The Ohio State Univ. (United States)

## SESSION 2  UNMANNED SURVEILLANCE PLATFORMS (UUV/UAV)

8046 06  **A compact, fast-response synchronous measurement of temperature for UAV applications** [8046-08]
A. Khan, D. J. Miller, K. Sun, M. A. Zondlo, Princeton Univ. (United States)

## SESSION 3  PERIMETER SURVEILLANCE/ASSET PROTECTION

8046 09  **Biomimetic fusion that enhances sensor performance in a bimodal surveillance system** [8046-12]
L. Ziph-Schatzberg, The Boston Univ. Photonics Ctr. (United States); S. Kelsall, General Dynamics Electric Boat (United States); A. E. Hubbard, Boston Univ. (United States)

8046 0B  **SCORPION II persistent surveillance system update** [8046-14]
M. Coster, C. Hunt, Northrop Grumman Electronic Systems (United States)

8046 0C  **Critical asset protection modeling, simulation, analysis, and visualization** [8046-15]
W. C. Malinowski, R. Cruz, U.S. Army Armament Research, Development and Engineering Ctr. (United States)

## SESSION 4  PERSONNEL DETECTION/CLASSIFICATION

8046 0D  **Robust discrimination of human footsteps using seismic signals** [8046-17]
A. E. Faghfouri, M. B. Frish, Physical Sciences Inc. (United States)

8046 0Q  **Heading error in an alignment-based magnetometer** [8046-31]
C. Hovde, Southwest Sciences, Inc. (United States); B. Patton, Univ. of California, Berkeley (United States); O. Versolato, Univ. of Groningen (Netherlands); E. Corsini, Univ. of California, Berkeley (United States); S. Rochester, Univ. of California, Berkeley (United States) and Rochester Scientific (United States); D. Budker, Univ. of California, Berkeley (United States)

*Author Index*
Conference Committee

Symposium Chair

**William Jeffrey**, HRL Laboratories, LLC (United States)

Symposium Cochair

**Kevin P. Meiners**, Office of the Secretary of Defense (United States)

Conference Chair

**Edward M. Carapezza**, University of Connecticut (United States) and DARPA (United States)

Program Committee

**Jacques Bédard**, Defence Research and Development Canada (Canada)

**John G. Blitch**, ARACAR: Alliance for Robot Assisted Crisis Assessment and Response (United States)

**John C. Carrano**, Carrano Consulting (United States)

**Christina J. Deckard**, Space and Naval Warfare Systems Center Pacific (United States)

**Sachi V. Desai**, U.S. Army Armament Research, Development and Engineering Center (United States)

**Daniel D. Desjardins**, Air Force Research Laboratory (United States)

**John S. Eicke**, U.S. Army Research Laboratory (United States)

**Alan J. Gray**, Defence Science and Technology Laboratory (United Kingdom)

**Todd M. Hintz**, Space and Naval Warfare Systems Command (United States)

**Myron E. Hohil**, U.S. Army Armament Research, Development and Engineering Center (United States)

**Ivan Kadar**, Interlink Systems Sciences, Inc. (United States)

**Tariq Manzur**, Naval Undersea Warfare Center (United States)

**George McNamara**, Naval Undersea Warfare Center (United States)

**Huub A.J.M. van Hoot**, TNO Defence, Security and Safety (Netherlands)

**Graeme P. van Voorthuijsen**, TNO Defence, Security and Safety (Netherlands)
Session Chairs

1. Gunfire Detection/Counter Sniper/Beam Forming
   Myron E. Hohil, U.S. Army Armament Research, Development and Engineering Center (United States)

2. Unmanned Surveillance Platforms (UUV/UAV)
   Myron E. Hohil, U.S. Army Armament Research, Development and Engineering Center (United States)

3. Perimeter Surveillance/Asset Protection
   Myron E. Hohil, U.S. Army Armament Research, Development and Engineering Center (United States)

4. Personnel Detection/Classification
   Sachi V. Desai, U.S. Army Armament Research, Development and Engineering Center (United States)
   Todd M. Hintz, Space and Naval Warfare Systems Command (United States)

5. Distributed Sensor Fields and Networks
   Sachi V. Desai, U.S. Army Armament Research, Development and Engineering Ctr. (United States)
   Todd M. Hintz, Space and Naval Warfare Systems Command (United States)

6. EO, Imaging, and Communications Technologies
   Tariq Manzur, Naval Undersea Warfare Center (United States)
