Volume 11941

Proceedings of SPIE, 1605-7422, V. 11941

Ophthalmic Technologies XXXII, edited by Daniel X. Hammer, Karen M. Joos, Daniel V. Palanker,
Proc. of SPIE Vol. 11941, 1194101 · © 2022 SPIE · 1605-7422 · doi: 10.1117/12.2634756

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Ophthalmic Technologies XXXII*, edited by Daniel X. Hammer, Karen M. Joos, Daniel V. Palanker, Proc. of SPIE 11941, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Publication of record for individual papers is online in the SPIE Digital Library.

SPIE. DIGITAL LIBRARY

SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

FUNCTIONAL IMAGING

11941 04 **Intrinsic signal optoretinography of dark adaptation [11941-17]**

HIGH-SPEED, FULL-FIELD, AND VOLUMETRIC DEVICES

11941 05 **Multifunctional and multimodal Fourier domain mode-locked laser-based adaptive optics system for ultrahigh speed retinal cellular imaging [11941-25]**

OCULAR BIOMECHANICAL PROPERTIES: JOINT SESSION WITH CONFERENCES 11941 AND 11962

11941 06 **Mapping corneal stiffness with compressional optical coherence elastography [11941-32]**

ANTERIOR SEGMENT IMAGING AND THERAPIES

11941 07 **Measurements of mechanical steady-state accommodation fluctuations using optical coherence tomography [11941-34]**

HANDHELD AND MINIATURE DEVICES

11941 09 **Ultra-widefield handheld swept-source OCT for peripheral retinal imaging [11941-41]**

POSTER SESSION

11941 0B **Evaluating the effects of scattering on retinal image quality [11941-60]**

11941 0C **Training of an artificial intelligence algorithm for automatic detection of the Van Herick grade [11941-61]**

11941 0E **An ultra-wide-field fundus camera with color balanced trans-palpebral illumination [11941-63]**

- 11941 OF **Estimation of the cross-sectional surface area of the waist of the nerve fiber layer at the optic nerve head** [11941-68]
- 11941 OG **A simple Maxwellian optical system to investigate the photoreceptors contribution to pupillary light reflex** [11941-69]
- 11941 OH **Depth-resolved profile features for differentiating arteries and veins in OCT and OCT angiography of the human retina** [11941-70]
- 11941 OI **Anterior segment optical coherence tomography (AS-OCT) for the visualization and quantification of dose-dependent ocular toxicity** [11941-71]
- 11941 OJ **Comparative feature analysis in OCT and OCT angiography of diabetic retinopathy** [11941-78]
- 11941 OK **Optimizing the protocol for retinal vascular permeability mapping from fluorescein video angiography data** [11941-84]
- 11941 OL **What is the role of magnification correction in the measurement of macular microvascular dimensions in emmetropic eyes?** [11941-89]
- 11941 OM **Is there a relationship between optic disc ovality index and positional changes in myopic eyes?** [11941-91]

Conference Committee

Symposium Chairs

Jennifer K. Barton, The University of Arizona (United States)
Wolfgang Drexler, Medical University of Vienna (Austria)

Program Track Chairs

Brian Jet-Fei Wong, Beckman Laser Institute and Medical Clinic,
University of California, Irvine (United States)
Eva M. Sevick, The University of Texas Health Science Center at
Houston (United States)

Conference Chairs

Daniel X. Hammer, U.S. Food and Drug Administration (United States)
Karen M. Joos, Vanderbilt University (United States)
Daniel V. Palanker, Stanford University (United States)

Conference Program Committee

Rafat R. Ansari, NASA Glenn Research Center (United States)
Kostadinka Bizheva, University of Waterloo (Canada)
David Borja, Alcon Laboratories, Inc. (United States)
Ralf Brinkmann, Universität zu Lübeck (Germany)
Wolfgang Drexler, Medical University of Vienna (Austria)
Sina Farsiu, Duke University (United States)
Arthur Ho, Brien Holden Vision Institute (Australia)
Anthony N. Kuo, Duke University School of Medicine (United States)
Kirill V. Larin, University of Houston (United States)
Zhuolin Liu, U.S. Food and Drug Administration (United States)
Fabrice Manns, University of Miami (United States)
Ezra Maguen, American Eye Institute (United States)
Donald T. Miller, Indiana University (United States)
Derek Nankivil, Johnson & Johnson Vision Care, Inc. (United States)
Jean-Marie Parel, Bascom Palmer Eye Institute (United States)
Ygal Rotenstreich, The Chaim Sheba Medical Center, Tel Hashomer
(Israel)
Luigi Rovati, Università degli Studi di Modena e Reggio Emilia (Italy)
Marco Ruggeri, Bascom Palmer Eye Institute (United States)
Georg Schuele, OptiMedica Corporation (United States)
Jerry Sebag, VMR Institute (United States)
Per G. Söderberg, Uppsala University (Sweden)

Yuankai K. Tao, Vanderbilt University (United States)
Robert J. Zawadzki, University of California, Davis (United States)
