

PROCEEDINGS OF SPIE

***International Symposium
on Silicon-based
Optoelectronics
(ISSBO 2022)***

**Yue Hao
Zhiping Zhou**
Editors

**26–28 August 2022
Hangzhou, China**

Organized by
Chinese Laser Press (China)
Shanghai Industrial Technology Research Institute (China)

Published by
SPIE

Volume 12504

Proceedings of SPIE 0277-786X, V. 12504

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Symposium on Silicon-based Optoelectronics (ISSBO 2022),
edited by Yue Hao, Zhiping Zhou, Proc. of SPIE Vol. 12504, 1250401
© 2022 SPIE · 0277-786X · doi: 10.1117/12.2669201

Proc. of SPIE Vol. 12504 1250401-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Symposium on Silicon-based Optoelectronics (ISSBO 2022)*, edited by Yue Hao, Zhiping Zhou, Proc. of SPIE 12504, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

INTERNATIONAL SYMPOSIUM ON SILICON-BASED OPTOELECTRONICS (ISSBO 2022)

- 12504 02 **Optical system for scanning angle amplification in tunable laser based all-solid lidar** [12504-2]
- 12504 03 **Interoperable pilot tone technology applied in 100Gb/s multichannel IM-DD optical modules** [12504-3]
- 12504 04 **A CMOS compatible silicon modulator of 3D-optimized interleaved design with high modulation efficiency** [12504-5]
- 12504 05 **Fabrication and performance of a novel CMOS infrared emitter** [12504-7]
- 12504 06 **Design and improvement of InP-based traveling wave Mach-Zehnder modulator for monolithic integrated with V-cavity laser** [12504-8]
- 12504 07 **Design and fabrication of a TE-pass polarizer based on silicon nitride optical waveguide** [12504-10]
- 12504 08 **Waveguide-grating-based optical tweezers for particle trapping** [12504-11]
- 12504 09 **On-chip octave-spanning flat supercontinuum in all-normal-dispersion silicon nitride waveguides** [12504-16]
- 12504 0A **Compact low loss 3dB curved directional coupler enabled by silicon columns in silicon-on-insulator** [12504-18]
- 12504 0B **An on-chip atomic layer deposited waveguide amplifier with broadband net gain** [12504-19]
- 12504 0C **Athermal waveguides and resonators with three zero-thermal-drift wavelengths** [12504-20]
- 12504 0D **Polarization/wavelength multiplexing devices realized by silicon nitride subwavelength grating structures** [12504-21]

Conference Committee

Conference Chairs

Yue Hao, Xidian University (China)
Zhiping Zhou, Peking University (China)

Session Chairs

- 1 Fundamental Research
Daoxin Dai, Zhejiang University (China)
Huiyun Liu, University College London (United Kingdom)
Lin Zhang, Tianjin University (China)
- 2 Application Development
Chang Chen, Shanghai Institute of Microsystem and Information Technology, CAS (China)
Qifen Hao, Institute of Computing Technology, CAS (China)
Nan Qi, Institute of Semiconductors, CAS (China)
- 3 Industry Forum
Weiping Huang, Shandong University (China)
Junjie Li, China Telecom (China)
Chongjin Xie, Alibaba (China)
